
**Intent to Run for the Board of Directors of the
WaterFord Point Condo. Association**

As a board member for the past three years I have tried to be a voice of reason and one who has tried to keep our fees as low as possible while still managing to address some major projects. As many of you know our elevators and fire alarm systems are another story. We are all being assessed for those relics unfortunately out of necessity. The only assessment in the last several years.

I originally ran for the Board as someone who would listen to voices and complaints of the residents and try to provide answers to whatever questions you may have. I think I have done that and will continue to be an ear for anyone who has an issue about anything concerning our board or condo.

Along with other board members and involved residents I would continue an effort to upgrade our common areas and beautify our building as budgets allow. I would be happy to continue to help make our condo. a great place to live and one we can proud to call home.

Thanks for your consideration.
